🔗 DEVELOPER PROFILE

Professional experience in working with Microsoft technologies like C#, ASP.NET MVC, ASP.NET WEB API, .Net Core / Entity Framework, Microsoft SQL Server, IIS - end development technologies HTML5, CSS3, JavaScript, jQuery, Typescript and Bootstrap framework.

🔗 .NET Core Home

The dotnet/core repository is a good starting point for .NET Core.

The latest major release is .NET 5.0. The latest patch updates are listed in .NET Core release notes.

🔗 .NET Core Releases

- Download the latest .NET Core SDK
- .NET Core releases
- .NET Core daily builds

Learn about .NET Core

- Learn about .NET Core
- .NET Core Roadmap
- Learn about the .NET platform
- .NET Core release notes
- .NET Core Announcements
- .NET Core blog

Getting help

- File an issue
- Ask on Stack Overflow
- Contact Microsoft Support
- VS Developer Community Portal for .NET Framework feedback (or via Report a Problem tool)

How to Engage, Contribute and Provide Feedback

The .NET Core team encourages contributions, both issues and PRs. The first step is finding the .NET Core repository that you want to contribute to.

Check the product roadmap to see what the team is focusing on.

Community

This project uses the .NET Foundation Code of Conduct to define expected conduct in our community. Instances of abusive, harassing, or otherwise unacceptable behavior may be reported by contacting a project maintainer at conduct@dotnetfoundation.org.

.NET Foundation

The .NET Core platform is part of the .NET Foundation.

Licenses

.NET Core repos typically use either the [MIT](#) or [Apache 2](#) licenses for code. Some projects license documentation and other forms of content under [Creative Commons Attribution 4.0](#).

See specific [repos](#) to understand the license used.
